Please note that there is no charge to be added to our wait list. **Siblings of currently enrolled students have priority placement.** Unfortunately, being on the wait list does not guarantee that a space will become available for your child. As openings only occur when a family leaves the program, they may occur throughout the school year and can vary widely between classes. Families on the wait list are contacted per their order on the wait list as openings become available. Each January families on the wait list are contacted to ascertain whether they wish to remain. If there is no response to this contact, the child's name will be removed from the wait list.
